Judging

Judges in all UDJC classes provide verbal feedback after each ride to help riders improve. Dressage riders may request a copy of their Benchmark Tests with written feedback. Whenever possible, judge feedback shall be entered digitally on HorseSpot for riders to view.

Dressage Classes

There are two types of Dressage class offered by UDJC: Benchmark Dressage & Ability Dressage.

Benchmark Dressage

The Benchmark Tests are regular Dressage Tests as you know them. You can find all the UDJC Benchmark Tests here: **Download Dressage Tests Here**

- Tests are ridden individually
- Riders must achieve THREE qualifying scores to move up a level (7.5 or higher in E, A, or L, or a 65% or height in M Level and beyond)
- Focus is mainly on horse performance

Ability Dressage

These are judged on the rider ability only and not on the quality or performance of the horse.

- No qualification necessary
- Ridden in two parts:

        - **Free Test** - Groups of 2-4 riders at a time. Riders follow the judge's instructions with level-specific movements. Verbal feedback is provided afterwards.
        - **Short Pattern** - Each rider performs a short, level-specific pattern individually
    - Final score = combined score from both parts
    - Judging criteria: rider's position, aids, accuracy, and influence over the horse as well as the horse's rideability & responsiveness to the rider (but not horse quality).
    - Ability Tests can also be viewed and downloaded here: **Download Ability Tests Here**

Dressage Levels

- **Pre- B -** Lead Line and Lunge Line Classes
- **B** - Entry Level - walk/trot or walk/trot/canter (group classes only)
- **E** - Similar to USDF Training Level
- **A** - Similar to USDF First Level
- **L** - Similar to USDF Second Level
- **M** - Similar to USDF Third Level
- **S** - Similar to USDF Fourth Level
- **FEI Classes** available: Inquire with show organizer

Jumper Classes

All jumping classes up to, and including, 0.85m classes are judged on style, not on speed. This aims to develop correct technique and safe riding before introducing time pressure.

Jumping Level Overview: You can find sample courses and more information about the jumping levels and heights here: ⊕ Tests, Scoresheets & Courses | UDJC

Style Jumping Classes (0.40m-0.65m)

- Each of these class heights will have a required Flat Test embedded within the first class at each height. Riders will ride in a group format with up to 4 individuals. The flat phase will run first, followed by a short individual course jumping test. Riders will receive feedback from the judge, as well as their score, right after the jumping round.
- The Flat Test is required for all riders at the designated height.
- After the Flat Test is completed the rider may come back for up to two over fences rounds at that height which shall be judged on Style (not time).
- **Pre-B Jumper 0.40m** - The course consists of four cross rails from the trot.
- **B Jumper 0.50m** - The course consists of two cross rails from the trot and four 0.50m verticals from the canter.
- **E* Jumper 0.65m -** The course may start with a gymnastic line: Trot into a cross-cross-bounce, followed by a one stride to a vertical and a two stride to an oxer or a single trot jump. The course continues in the canter over 5-6 additional verticals and oxers of 0.60-0.65m. *Riders may elect to skip the grid and jump a single designated fence for jump 1 with no penalty. Knock downs in the grid do not count for fault deductions.

E Jumper 0.75 & A* Jumper 0.85m**

- No flat tests are required at these heights, however they are still judged on style and scored out of 10 total points. A flat test shall be offered at both heights and points from the flat class count towards division Champion and Reserve Champion.
- Each course is performed individually.
- The course contains 7-10 jumps with a mix of verticals and oxers.
- All riders receive feedback as well as a score for their round.

A Jumper 0.95m & Higher**

- Timed jumper classes begin, with style sill encouraged but faults and time determine placings in most modes.
- **Jumping Modes Overview**
  - **Jump-Off (JO)** - Riders first complete an initial round. All clear rounds qualify for a second round (the jump-off) over a shorter course. In the jump off the lowest penalty score with the fastest time wins.
  - **Against The Clock (ATC)** - Riders compete over a set course with the fastest clear round winning. Penalties are added for faults (rails down, refusals, time over).
  - **Time (T)** - Similar to an ATC class, but every fence knocked down adds time instead of penalty points. The rider with the lowest total time wins.
  - **Style (S)** - Judged on rider position, use of aids, rhythm, accuracy, and execution of the course. Decimal score given; penalties for rails/refusals deducted from style points.
  - **Joker (J)** - A class where the last fence (the "joker") is higher or more challenging and offers bonus points if cleared, but extra penalties if knocked down.
  - **Combined (C)** - The first round is a style round. If the rider receives a score of 7.5 or higher they will stay in the ring and ride a jump-off for time.

Judges in UDJC hunters always provide verbal feedback after each ride to help riders improve.

Young Horses at UDJC

We offer a full range of young horse classes in dressage and jumping for horses aged 3 to 7 years old, running from Level E to Level M. These classes are designed specifically for correct, age-appropriate development, ensuring young horses progress without being over-faced.

The goal across all disciplines is to give young horses the best possible start in competition by focusing on correct training, confidence-building, and long-term soundness rather than short-term results.

More details on Young Horses Classes can be found here: **Foundation Prize List**

Many thanks to our Community Partner - GGT Footing!

Expert Clinics

The first day of each Heartland Horse Shows UDJC Foundation weekend will feature our Educational Expert Clinics with the officiating judge. These clinics are designed to give riders a unique opportunity to learn directly from experienced professionals in a supportive, educational environment before entering the show ring the following day. Riders will receive valuable feedback, exercises, and insight tailored to their level and discipline.

Clinic groups will be divided by discipline and level/height to create productive, appropriately matched sessions for all participants.

To enter the clinic, please select "Expert Clinic" when adding classes to your entry and choose the appropriate discipline and designated height/level group. Space is limited and groups may fill quickly.

For our July show, we are thrilled to welcome back Kathy Davidson, USEF "R" Rated Judge, as both judge and clinician. Kathy has become a favorite among riders and trainers for her knowledgeable, approachable teaching style and incredibly helpful feedback. While she is a trained hunter and equitation judge, Kathy also rides and trains in dressage and offers valuable feedback for riders of all disciplines. She has a fantastic ability to create a positive learning atmosphere while providing practical tools that immediately improve performance in the ring.
