Jumper Specifications

For outreach points, riders cannot compete in classes bigger than .5m from where they start.

Table IV- Optimum Time - The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In the case of equality of faults, ties will be broken on the following basis: an "Optimum Time" (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan; the horse with the time on course closest to this Optimum Time (over or under) will prevail in the tie, next closest next, etc.

Table II.2.b – The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. If a competitor has gone clear in the first round, the competitor will, without leaving the ring, upon an audible signal, commence the designated jump-off course. If there are no clear rounds and a tie exists for first place, the results will be determined by the scores and time from that round. It is recommended that no more than twelve numbered obstacles be included in the first round when the class is scored under this table.

Table II.2.c – The first phase to consist of 8 to 10 jumping efforts and the second phase of 5 to 7 jumping efforts. Scores are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed if any. If a competitor has gone clear in the first phase, he will, upon crossing the finish line, commence the second phase course. Time starts as the horse crosses the finish line of the first phase. If there are no clear rounds and a tie exists for first place, the results will be determined by the scores and time from the first phase. The use of a Time Allowed is optional in the first phase. If a Time Allowed is not used in the first phase then those with equal faults will remain tied.

Table II.1 – The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. Horses with clear rounds or equal faults are classified according to their time taken to complete the course.

Equine activities are extremely dangerous. To engage in an equine activity means to ride, train, drive, be a passenger upon a horse, whether mounted or unmounted, or to assist a participant, equine activity sponsor or equine professional. This is written in the law at Montana Code Annotated 27 ± 726. There are inherent risks in engaging in equine activities. Horses react unpredictably and may behave in ways resulting in injury, harm to, or the death of persons on or around the horse(s). Additionally, there are other hazards related to the horse facility property, including but not limited to, ground conditions, ice, snow, uneven terrain/footing, dim lighting, and the potential for collisions with other horses or objects, or for participants to lose control of their horse or fall to act within their abilities, resulting in injury or death to themselves or others. Participants must acknowledge these and other related dangers, and act in a safe and responsible manner at all times and take all necessary precautions to avoid potentially injurious or life threatening accidents. In consideration, therefore, the undersigned hereby agrees to hold harmless and indemnify, during this horse show and immediately following, Big Sky Equestrian, its members, owners, agents and employees, which for this horse show also include the Montana Hunter Jumper Association and its Board of Directors, The United States Hunter Jumper Association, the show manager, show agents, and volunteers, and further release them from any legal responsibility for death or injury to participants, sustained solely as the result of risks inherent in equine activities, if those risks are or should be reasonably obvious, expected, or necessary to persons engaged in equine activities (MCA 27 ± 725). In addition Big Sky Equestrian, its members, owners, agents and employees are not liable or responsible for accident, damage, injury, or death of any horse owned, leased, borrowed, or ridden by the participant or to any family member or spectator accompanying the participant on the premises, nor for accident, damage, injury, or death due to lessee's' footing, lighting, and on ground conditions. Participants of equine activities must wear footwear specific to horseback riding with heels and hard soles while engaging in any activity with horses. Participants under the age of 18, and those who participate in ANY jumping activity including conformation MUST wear an ASTM/SEI approved helmet with properly adjusted and fastened safety harness while riding in said activities. This release is for Big Sky Equestrian, its members, owners, agents, employees, successors, assigns, and legal representatives. This release binds the participant from bringing forth claims arising from participation in these activities, as well as his/her spouse, heirs, legal representatives, and assigns. Also, the participant releases Big Sky Equestrian, its members, owners, agents and employees from any claims for loss or damages, including personal injury or death while participating in these equine related activities. Big Sky Equestrian may use or assign photographs, videos, audio, audio visual, or other likenesses of me and my horse taken during the course of competition for the promotion, coverage, or benefit of the competition. These likenesses shall not be used to advertise a product and they may not be used in such a way as to jeopardize amateur status. Hereby expressly and irrevocably waive and release any rights in connection with such use including any claim to compensation, invasion of privacy, right of publicity, and misappropriation.
