TABLE EXPLANATIONS:

TABLE II.2.b
Timed first Jump Off Jumper classes are scored by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed, this applies to both first round and first jump-off, if any. If the competitor has gone clean in the first round, the competitor will, without leaving the ring, upon an audible signal, commence the designated jump-off course.

adding together the faults incurred over the course and any penalties for exceeding the Time Allowed, if any. If a competitor has gone clean in the first round, he will, upon crossing the finish line, commence the designated jump-off course. Time starts as the horse crosses the finish line for the initial course.

Optimum Time TABLE IV.1
Optimum Time in First Round The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In the case of equality of faults, ties will be broken on the following basis: an "Optimum Time" (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan; the horse with the time on course closest to this Optimum Time (over or under) will prevail in the tie, next closest next, etc.

CONVERTED INTO FAULTS.
Faults incurred when jumping an obstacle, for knocking down a boundary flag, for putting one or more feet in the water are penalized by adding four seconds for each occurrence. The first disobedience is penalized automatically by the extra time taken. Standard USEF causes of elimination applies.
